In snake bite cases, general findings are various systemic and local effects including necrose, haemorrhage, pain and local edema. The Ottoman Viper, Montivipera xanthina (Gray, 1849) (Viperidae), whose venom could be haemolytic and cytotoxic, is distributed in Middle, South and West Anatolia [1].

Different Centaurea L. species (Asteraceae) are used for tonic, expectorant, antipyretic, antidiarrheal effects and treatment of snake bites in Anatolian traditional medicine [2,3]. C. calolepis Boiss. is an endemic species, distributed in West and South-West Anatolia. Chloroform extract of plant and its major compound cnicin, a sesquiterpene lactone, showed strong anti-inflammatory activity in-vitro and in-vivo experiments [4,5]. The aim of this study was to determine anti-inflammatory activities of C. calolepis and cnicin against Montivipera xanthina venom induced-edema in rat.

C. calolepis chloroform extract and cnicin were applied to Wistar rats per orally in different doses. Snake venom (37.5 µg/paw) was injected into hind paw, measured by plethysmometer at ½, 1, 2, 3 and 4 h and determined percent of edema increasing. Indomethacin was used as positive control. 10 mg/kg of cnicin (28.31%) and 25 mg/kg of chloroform extract (11.12%) showed stronger anti-inflammatory effect than standard agent indomethacin (38.27%) at ½ h.

This study was supported by The Scientific And Technological Research Council of Turkey (TÜBİTAK) (Project No. 115-S-022).

2ND INTERNATIONAL GAZİ PHARMA SYMPOSIUM

ABSTRACT BOOK
GPSS-2017 IS SUPPORTED BY TÜBİTAK
(The Scientific and Technological Research Council of Turkey) with 2223-B Program.

Special thanks to Turkish Association of Pharmacists for their kind support.
Dear Colleagues,

On behalf of the organizing committee, it is my great honor and privilege to invite you to the 2nd International Gazi Pharma Symposium Series (GPSS-2017), which will be organized by Faculty of Pharmacy, Gazi University in Ankara (Turkey) in October 11-13, 2017. Being a biennial symposium, the first series of Gazi Pharma Symposium was successfully held in 2015 in Antalya (Turkey).

Discovery and development of drugs against human diseases involve a wide range of scientific approaches of pharmaceutical sciences. Therefore, the intention of GPSS-2017 is to emphasize the important roles of all fields related to the drug discovery and development process and also provide a wide platform for international collaboration and communication in the interdisciplinary fields of pharmaceutical sciences by bringing the experts together from all over the world. The scientific program includes plenary lectures as well as oral and poster presentations delivered by all partners contributing to all fields of pharmaceutical sciences.

We sincerely hope that this symposium will meet your expectations and stimulate new collaborations. Looking forward to welcoming you in Ankara, the capital of Turkey.

Prof. Dr. İlkyay ERDOĞAN ORHAN
Symposium Chairperson
ORGANIZING COMMITTEE

HONORARY CHAIRPERSON
Prof. Dr. Ibrahim USLAN (Rector of Gazi University, Turkey)

CHAIRPERSON
Prof. Dr. İlkay ERDOĞAN ORHAN
(Dean of Faculty of Pharmacy, Gazi University, Turkey)

SYMPOSIUM SECRETARIAT
Assoc. Prof. Dr. İpek SÜNTAR (Gazi University, Turkey)

MEMBERS
Assoc. Prof. Dr. Gökçen EREN (Gazi University, Turkey)
Dr. Tuba İNCÊCAYIR (Gazi University, Turkey)
Dr. Emel ÇALIŞKAN CAN (Gazi University, Turkey)
Dr. Burak DEMİRHAN (Gazi University, Turkey)
Dr. Onur Kenan ULUȚAŞ (Gazi University, Turkey)
Dr. Aysun ÖZDEMİR (Gazi University, Turkey)
Dr. Fatma Sezer ŞENOL (Gazi University, Turkey)
Dr. Hilal TORUL (Gazi University, Turkey)

SCIENTIFIC ADVISORY COMMITTEE

Antimo GIOIELLO (University of Perugia, Italy)  Haydar ÖZDEMİR (Ankara University, Turkey)
Antonio MACCHIARULO (University of Perugia, Italy)  Hugo de BOER (University of Oslo, Norway)
Bensu KARAHALİL (Gazi University, Turkey)  Ivo GRABCHEV (Sofia University, Bulgaria)
Berrin ÖZÇELİK (Gazi University, Turkey)  İhsan ÇALIŞ (Near East University, Turkish Republic of Northern Cyprus)
